

Test Plan

Project Name:-

Manual Testing of nopCommerce Demo Website

1. Introduction

This Test Plan describes the testing approach for the nopCommerce Demo Website. The objective is to verify that the core functionalities of the application work as expected and satisfy the specified requirements.

2. Objective

The objective of this testing is to ensure that:

- Users can register successfully.
 - Registered users can log in.
 - Products can be searched.
 - Products can be added to the shopping cart.
 - Users can complete the checkout process.
 - Users can log out successfully.
-

3. Scope of Testing

The following modules are included in testing:

- Registration
- Login
- Product Search
- Product Details
- Shopping Cart
- Checkout & Logout

4. Out of Scope

The following are not included in this project:

- Admin Module
 - API Testing
 - Automation Testing
 - Performance Testing
 - Security Testing
 - Mobile Testing
-

5. Testing Types

The following testing types will be performed:

- Functional Testing
 - UI Testing
 - Positive Testing
 - Negative Testing
 - Validation Testing
-

6. Test Environment

Website: <https://demo.nopcommerce.com>

Browser: Google Chrome

Operating System: Windows 11

Testing Type: Manual Testing

7. Entry Criteria

Testing will begin when:

- The application is available.
- Internet connection is stable.
- Test data is prepared.

8. Exit Criteria

Testing will be completed when:

- All planned test cases have been executed.
 - Major defects have been reported.
 - Test Summary Report has been prepared.
-

9. Test Deliverables

The following documents will be produced:

- Software Requirement Specification (SRS)
 - Test Plan
 - Test Scenarios
 - Test Cases
 - Bug Report
 - Requirement Traceability Matrix (RTM)
 - Test Summary Report
-

10. Risks

Possible risks include:

- Demo website may be temporarily unavailable.
 - Internet connectivity issues.
 - Some demo features may not behave consistently.
-

11. Roles and Responsibilities

Role: Manual QA Tester

Responsibilities:

- Prepare test scenarios.
- Write test cases.
- Execute test cases.
- Report defects.

12. Conclusion

This Test Plan defines the overall testing strategy for the nopCommerce Demo Website. Manual testing will be performed on the selected modules to verify their functionality and identify defects.
