QA Testing Assignment

Bug Report 1

Bug ID: BUG-TC008-01

Test Case ID: TC008_01

Title: Password recovery email is not received after submitting a valid email address.

Module: Login

Severity: Medium

Priority: High

Environment:

- Application: nopCommerce
- Browser: Chrome
- OS: Windows 11

Preconditions:

- User has a registered account.
- User is on the Password Recovery page.

Steps to Reproduce: 1. Navigate to the Password Recovery page.

2. Enter a registered email address.

3. Click **Recover**.

Expected Result: A password reset email should be sent to the registered email address.

Actual Result: The application displays the message “**Email with instructions has been sent to you.**” However, no password reset email is received in the user’s inbox.

Frequency: 100% (Observed during testing)

Visual Evidence:

- Screenshot: **TC008_01.png**
- The success notification is displayed although no email is delivered.

Status: Open

The success message "Email with instructions has been sent to you." is displayed, but no password recovery email is received.

Bug Report 2

Bug ID: BUG-TC0012-01

Test Case ID: TC0012_01

Title: Product details displayed do not match the expected product information.

Module: Product Details

Severity: Medium

Priority: High

Environment:

- Application: nopCommerce
- Browser: Chrome
- OS: Windows 11

Preconditions:

- User is viewing the product details page.

Steps to Reproduce:

1. Open the product page.
2. Verify the product title, description, SKU, specifications, and pricing against the expected data.

Expected Result:

All product information should match the product master data.

Actual Result:

One or more product details displayed on the page do not match the expected product information.

Frequency:

100% (Observed during testing)

Visual Evidence:

- Screenshot: **TC0012_01.png**

Status: Open

One or more product details displayed on the page do not match the expected product information.

The ASUS N550JX combines cutting-edge audio and visual technology to deliver an unsurpassed multimedia experience. A full HD wide-view IPS panel is tailor-made for watching movies and the intuitive touchscreen makes for easy, seamless navigation. ASUS has paired the N550JX's impressive display with SonicMaster Premium, co-developed with Bang & Olufsen ICEpower® audio experts, for true surround sound. A quad-speaker array and external subwoofer combine for distinct vocals and a low bass that you can feel.

Bug Report 3

Bug ID: BUG-TC0012-03

Test Case ID: TC0012_03

Title: Incorrect product specifications are displayed on the Product Details page.

Module: Product Details

Severity: Medium

Priority: Medium

Environment:

- Application: nopCommerce
- Browser: Chrome
- OS: Windows 11

Preconditions:

- User navigates to the affected product page.

Steps to Reproduce: 1. Open the product details page. 2. Review the specifications, pricing, and product information. 3. Compare them with the expected specifications.

Expected Result: Correct specifications and pricing should be displayed for the selected product.

Actual Result: Incorrect specifications and/or pricing information are displayed.

Frequency: 100% (Observed during testing)

Visual Evidence:

- Screenshot 1: **TC0012_03 (1).png**
- Screenshot 2: **TC0012_03(2).png**

Status: Open

Bug Report 4

Bug ID: BUG-TC0020-03

Test Case ID: TC0020_03

Title: Order confirmation email is not received after successful order placement.

Module: Checkout

Severity: Major

Priority: High

Environment:

- Application: nopCommerce
- Browser: Chrome
- OS: Windows 11

Preconditions:

- User is logged in.
- A valid order is successfully placed.

Steps to Reproduce: 1. Add a product to the cart. 2. Complete the checkout process. 3. Verify that the order is successfully placed. 4. Check the registered email inbox.

Expected Result: A confirmation email should be sent immediately after the order is placed.

Actual Result: The application displays “**Your order has been successfully processed!**” but no confirmation email is received.

Frequency: 100% (Observed during testing)

Visual Evidence:

- Screenshot: **TC0020_03.png**
- The order is completed successfully, but the confirmation email is not received.

Status: Open

The application displays “Your order has been successfully processed!” but no confirmation email is received.
