

Test Summary Report

Project Name :-

Manual Testing of **nopCommerce Demo Website**

Prepared By: **Sahil**

Version: **1.0**

1. Project Information

Item	Value
Application	nopCommerce Demo Website
Application Type	E-commerce Web Application
Testing Type	Manual Testing
Browser	Google Chrome
Operating System	Windows 11
Modules Tested	Registration, Login, Search, Product Details, Shopping Cart, Checkout, Logout
Total Test Cases	88
Executed Test Cases	82
Passed	78
Failed	4
Not Executed	6
Defects Reported	4
Test Coverage	93.18%
Pass Percentage	95.12%

2. Project Overview

This report summarizes the manual testing activities performed on the nopCommerce Demo Website. Testing focused on validating core e-commerce functionalities including Registration, Login, Product Search, Product Details, Shopping Cart, Checkout, and Logout

3. Objective

The objective of this project was to perform manual testing of the core functionalities of the nopCommerce Demo Website to verify that the application behaves according to the specified requirements.

4. Scope of Testing

The following modules were tested:

- User Registration
 - User Login
 - Product Search
 - Product Details
 - Shopping Cart
 - Checkout
 - User Logout
-

5. Test Environment

Application: nopCommerce Demo Website

Browser: Google Chrome

Operating System: Windows 11

Testing Type: Manual Testing

6. Test Execution Summary

Metric	Count
Total Test Cases	88
Executed	82
Passed	78
Failed	4
Not Executed	6

7. Defect Summary

Severity	Count
Critical	0
High	0
Medium	2
Low	2
Total	4

8. Deliverables

The following documents were prepared during the project:

- Software Requirement Specification (SRS)
 - Test Plan
 - Test Scenarios
 - Test Cases
 - Bug Report
 - Requirement Traceability Matrix (RTM)
 - Test Summary Report
-

9. Risks and Challenges

- The application is a public demo website, so some behavior may change over time.
 - A few test cases could not be executed because of dependency or demo environment limitations.
 - Demo website behavior may change over time.
 - Some test cases could not be executed due to demo environment limitations.
 - Testing was limited to the defined project scope.
-

10. Conclusion

Manual testing was successfully completed for the selected modules of the nopCommerce Demo Website.

Out of 88 planned test cases, 82 were executed. A total of 78 test cases passed, 4 test cases failed, and 6 test cases were not executed. Four defects were identified, documented, and reported. Based on the executed test cases, the core functionality of the application is working as expected within the tested scope.
